

FINDING AID: PAJAMA GAME, THE (2006) NETWORKS PURCHASE BUDGETS AND CORRESPONDENCE FILE

Collection Overview

Identifier: PAJAMA2006 NETworks

Inclusive Dates: 2006 - 2008

Scope and Content

This folder contains estimated and actual budgets for various elements of "The Pajama Game" (scenery, costumes, props, labor, storage), which were collected with the intention to tour, remount or sell the production. There is correspondence relating to these budgets, some of which is between NETworks and the Roundabout.

There is also a memo sent in 2008 from Greg Backstrom regarding the continued life of "The Pajama Game"; it seems that the production was stored for a year and a half, and then believed to have been discarded, but turned up being toured by another production company without a producer's agreement. Kathleen Marshall saw this illegitimate production and her notes detailing the similarities to her production (including scenic and costume elements) are included in this folder.

Access Restrictions: Open and available to approved researchers by appointment only.
